Selecting your Channels/Packages Now that the STB is installed, you need to choose the channels that you wish to view and accordingly decide your monthly bill. You have many choices to make here, so take your time and study what your family requirements are. You can now choose to opt for the Basic Service Tier ("BST") or create your own BST from the list of Free To Air ("FTA") channels. The total number of channels that you can avail of is one hundred channels of which 18+5 are mandated Doordarshan channels. The BST is attractively priced at Rs.100/- per month plus taxes.

You can also skip the BST and directly select any of the packages offered by STAR VISION or choose one or more of the Pay channels in a la carte mode or as packages or a combination of both at the prices indicated on the Channel Selection Form ("CSF"). All prices are exclusive of taxes.

Once you have chosen your subscription package, we shall not change the composition of your subscription package for a period of six months from the date of your enrolment to such subscription package unless you have defaulted in paying your monthly subscription charges i.e.

you have failed to pay your monthly bill within 15 days from the bill date. This is applicable only for post paid customers. Provided that if a particular channel which forms a part of your package becomes unavailable on our network, then in that event your subscription package shall stand modified accordingly.

For pre-paid customers, we shall not change the composition of your subscription package for the entire period of the validity of your subscription package. Provided that if a particular channel which forms a part of your package becomes unavailable on our network, then in that event your subscription package shall stand modified accordingly.

Please note that if any channel which forms a part of the package that you have subscribed for becomes unavailable on our network then your subscription charges for that package will be reduced by an amount equivalent to the A la carte rate of that channel. Such reduction shall be effective from the date of unavailability of such channel on our network.

We shall give you fifteen days prior notice (save and except in cases of natural calamities and reasons beyond our control), before we take off the air any channel or discontinue the exhibition of any channel. The notice shall be published in the local newspaper and displayed through scrolls on your TV screen.

You may also opt for pre-paid or post-paid billing. If you opt for post-paid billing, your bill will be provided to you on a monthly basis. You have to ensure that bills are paid in full within 15 days of the bill date. Failure to do so will attract a penalty of 12% simple interest. You will be issued a receipt for the payment made by you towards your bill.

If you are a pre-paid subscriber then we shall, only upon your request, supply to you information relating to your itemised billing charges which shall show your actual usage of our services. However we shall not provide to you information relating to your itemised billing charges for any period beyond six months preceding the month in which the request for itemised billing is made by you.

You are free to change your billing plans from pre-paid to post-paid and vice versa without any extra charge.

As per the choice of channels made, kindly pay the LCO/STAR VISION office and keep the STB in Standby/Operational mode, so that the channels can be authorized on your STB.

Quality of Signal at your Location

We endeavor to deliver the signals to your location keeping the following technical parameters in mind.

S.N	Parameters	Value
1	Maximum and Minimum Carrier levels	47 dB μ V min. for 64 QAM 67 dB μ V max. for 64 QAM 54 dB μ V min. for 256 QAM 74 dB μ V max. for 256 QAM
2	Carrier levels	26 dB min for 64 QAM fall-off-the-cliff 32 dB min for 256 QAM fall-off- the-cliff
3	Operating Margin (Noise Margin)	Higher than 4db

These parameters are achieved by us on our trunk and distribution networks. Performance of these parameters can vary from each STB location so much so that it can be different at two locations within the same household due to the nature of the internal cabling within the household.

In such instances STAR VISION technician or its LCO will demonstrate the same at the tap off/ splitter level that feeds the particular household that the parameters are met and the subscriber will then have to replace the internal cabling at his/her cost.
